#### **PLEASE NOTE**

When selected for an internship, please check that the Host organisation can follow this procedure (<a href="https://www.careerservice.polimi.it/en-US/Internship/Company/Index/">https://www.careerservice.polimi.it/en-US/Internship/Company/Index/</a>) to activate the internship with you.

If, instead the Host organisation proposes you an internship contract based on their national laws, please send the contract to the Career Service as soon as possible since a careful check of the clauses is required before Politecnico di Milano accepts to sign it.

Our check focuses on IP and NDA clauses, to make sure they are compliant with our level of attention on the topics. We kindly ask you not to consider the internship confirmed before a first check of the contract is done and positively approved on our side.

Only internships that follow Politecnico di Milano's official signing of a specific Internship document/contract or official approval can be recognized.
