# CareerService

- 2022 **Student Guide**
- February-June **Calendar**

A smiling man and woman are the central figures. The man, on the left, has a beard and glasses and is wearing a dark polo shirt. The woman, on the right, has curly hair and is wearing a light-colored button-down shirt, holding several books. Three hand-drawn arrows point towards them: one from the top left, one from the top center, and one from the bottom right. The background is a solid light blue.

# *focus on your future!*

## **Career Service follows you during your whole academic path!**

Our first goal is to help you understand:

- Who you are (what you like, what you are able to do, what you expect from the future)
- How you can approach the job market
- How to choose the right job for you
- How to find it

***We would like to involve you during your Bachelor.***

***We will be with you during your Master.***

***And we will keep an eye on you even after your graduation!***

It is crucial to develop a good self awareness to understand if you are going in the right direction, **how can we help you?**

We offer one-to-one meetings with Career Advisors and Group activities to:

- strengthen your soft skills (mock a job interview with HR)
- understand better what you are able to do, realize what you like, your talents, values and how to communicate them in the right way
- prepare the tools to successfully present your profile on the job market (writing and revising your CV, getting ready for your first meeting with a recruiter)

**Who are you going to meet?** HR and Assessors, Companies' Mentors or Career Advisors from Career Service.

**How can we help you understand the job market?**

Check out the employment graduate data on our website, so you can have an idea on salaries, work contracts and perspectives.

Take part in meetings with companies scheduled daily online and on campus: listen to experts on their professional roles, learn more about the market trends, the sectors and the activities that engineers, architects and designers can do in companies. Discover the innovation projects developed by companies and talk directly with managers, often former Polimi students.

**And then, how to find a job?** Build your first professional network, face real job interviews to find an internship or a job. Visit our **online job board** and send your application if you would like to start a work experience.

**Participate in the job fairs:** they are important to get more details on companies, to meet Italian and International employers, to introduce yourself to HR and recruiters.

**Follow us!**

If you receive too many emails, but you don't want to miss the most important things, you know what you have to do! Career Service profiles on Instagram, Facebook and LinkedIn are very useful channels to get real-time updates from us. We use our social media accounts also to talk about new trends, new professional roles, give you information on internships, share data and insights on the world of work and exclusive programmes for you.

# WHAT IS HAPPENING THIS SEMESTER?

**You will meet almost 200 employers** and you can participate in career talks, round tables, career puzzles, guess my job... many of different formats which allow you to get prepared for the job market.

**This year we have big news: the Career Weeks**, special weeks where you will learn about the most significant aspects and trends of the contemporary job market: Industry 4.0, Energy and Sustainability,

Strategic Consulting, Digital Transformation, Chemical and Process Industry and Data Management.

Besides the Career Weeks, you can take part in meetings on job opportunities in many other sectors: Finance, Electronics, Logistics and Supply Chain, Aerospace, Telecommunications, Nuclear, Automotive, Building and Design.

**During the whole semester you can participate in mock group assessments and reserve a meeting with a career advisor.** You can book an online appointment also with HR representatives from different companies!

**Browse through this calendar, read the details of each event and register to participate!**

Conquer the Career Service Award, make your CV unique and enhance your competitiveness.

How? It is a digital badge which attests you completed a customized training path! You will be more easily identified by recruiters and hired!

Take part in 4 different activities, in the order you prefer:

- › **meet the companies**
- › **do a group assessment**
- › **create your career plan**
- › **meet the career advisor**

You will have the whole semester to conclude this programme. Discover the events belonging to the Career Service Award programme: you can't get wrong, they are labeled with the icon of the badge!

**REGISTRATION  
DEADLINE:  
1 MARCH**

May 2 - May 6

***Career Weeks are special weeks which allow you to have a broad picture about new trends in the job market in a specific sector.***

This semester there will be 6 Career Weeks.

During each Career Week there are different activities every day and you will meet experts of the sector who work in various companies.

***What can you do during the Career Week? Here are all the different formats you can find in each Career Week:***

- **CAREER TALK:** follow a path of company speeches to learn more about projects and skills requested to be part of one of their working teams.
- **ROUND TABLE:** managers and engineers will tell you all about their career paths and answer your many questions in an open discussion amongst employers' different points of view.
- **GUESS MY JOB:** find the clue and guess the professional role of the representatives and their working activities.
- **CAREER PUZZLE:** try to solve the case launched by the company. You can also use interactive tools to find a solution.
- **RECRUITING DAY:** a whole day dedicated to online job interviews with HR and technical experts from different companies.

# INDUSTRY 4.0

**FROM FEBRUARY 28 TO MARCH 4**

**ROUND TABLE WITH COMPANIES** | FEBRUARY 28

**CAREER PUZZLE WITH COMPANIES** | FEBRUARY 28

**GUESS MY JOB** | MARCH 1

**CAREER TALK ON TECHNICAL PROJECTS** | MARCH 2

**RECRUITING DAY** | MARCH 3

**RECRUITING DAY** | MARCH 4

***The world of industrial production is changing significantly and with it new jobs emerge: which ones?***

One week to learn all about roles, competencies and work opportunities in the field of Industry 4.0.

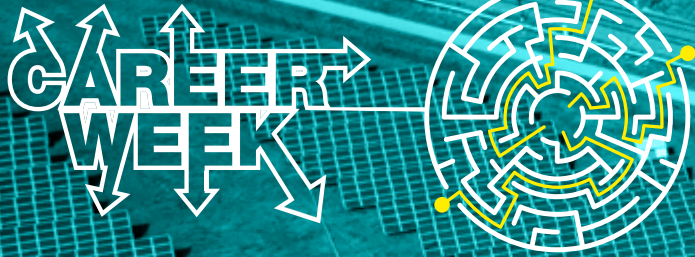

You will deal with topics such as IoT, smart manufacturing, smart factory and smart production processes.

You will meet 30 companies throughout the week.

***Recommended for***

- BSc 3<sup>rd</sup> year students, MSc students, graduates in:
- School of Industrial and Information Engineering (all courses)
  - Design&Engineering, Integrated Product Design

# ENERGY & SUSTAINABILITY

**FROM MARCH 14 TO MARCH 18**

**ROUND TABLE WITH COMPANIES** | MARCH 14

**CAREER PUZZLE WITH COMPANIES** | MARCH 14

**GUESS MY JOB** | MARCH 15

**CAREER TALK ON TECHNICAL PROJECTS** | MARCH 16

***The recent goals of sustainable development define a new model of society also in terms of environmental and economic aspects.***

Planning new strategies for sustainable programming and management of plants and energy systems is a crucial step: do you know why?

This week you will discover new jobs and the most requested skills to approach the energy and sustainability sector.

Together with 30 companies you will learn more about energy transition, storage and energy transportation, decarbonization, green technologies, nuclear and renewable energies.

***Recommended for***

- BSc 3<sup>rd</sup> year students, MSc students, graduates in:
  - School of Industrial and Information Engineering (all courses)
  - School of Civil, Environmental and Land Management Engineering (all courses)
  - Building Engineering, Building Engineering/Architecture

# STRATEGIC CONSULTING

**FROM MARCH 21 TO MARCH 25**

**ROUND TABLE WITH COMPANIES** | MARCH 21

**CAREER PUZZLE WITH COMPANIES** | MARCH 21

**GUESS MY JOB** | MARCH 22

**CAREER TALK ON TECHNICAL PROJECTS** | MARCH 23

**RECRUITING DAY** | MARCH 24

**RECRUITING DAY** | MARCH 25

***Strategic Consulting is a cross-cutting sector which meets all the changes taking place in the world of work.***

Why choose a career in this domain? Which skills do you need and what is strategic consulting exactly?

This week you will understand why digital innovation, risk management and data analytics are crucial aspects to consider when we talk about strategic consulting.

30 companies will accompany you in different meetings each day.

***Recommended for***

BSc 3<sup>rd</sup> year students, MSc students, graduates in:

- All Engineering courses
- Digital and Interaction Design, Integrated Product Design, Product Service System Design, Communication Design

# DIGITAL TRANSFORMATION

**FROM MARCH 28 TO APRIL 1**

**ROUND TABLE WITH COMPANIES** | MARCH 28

**CAREER PUZZLE WITH COMPANIES** | MARCH 28

**GUESS MY JOB** | MARCH 29

**CAREER TALK ON TECHNICAL PROJECTS** | MARCH 30

**RECRUITING DAY** | MARCH 31

**RECRUITING DAY** | APRIL 1

***Technology is continuously evolving and digitalization process is changing the business models in every economic sector.***

Which are the new trends of digital transformation and which new professional roles are emerging with it?

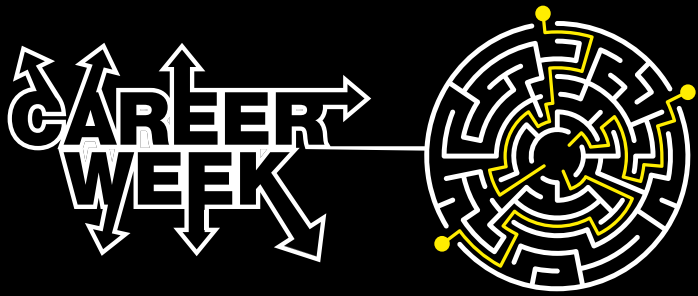

You will learn about topics such as cloud computing, e-commerce, quantum computing and security systems.

***Recommended for:***

BSc 3<sup>rd</sup> year students, MSc students, graduates in:

- Communication Design, Digital & Interaction Design, Product Service System Design
- Geoinformatics Engineering, Cyber Risk Strategy & Governance, Telecommunication Engineering, Computer Science and Engineering, Management Engineering, Electrical Engineering, Electronics Engineering, Mathematical Engineering, Engineering Physics

# CHEMICAL & PROCESS INDUSTRY

**FROM APRIL 4 TO APRIL 8**

**ROUND TABLE WITH COMPANIES** | APRIL 4

**CAREER PUZZLE WITH COMPANIES** | APRIL 4

**GUESS MY JOB** | APRIL 5

**CAREER TALK ON TECHNICAL PROJECTS** | APRIL 6

**RECRUITING DAY** | APRIL 7

**RECRUITING DAY** | APRIL 8

## ***How do you create industrial plants which take into account new materials and low emissions?***

This week is made to learn more about the new trends, job roles and work opportunities in the Chemical and Process Industry.

A special focus on sustainability, green technologies, new plants and their environmental impact.

Almost 30 companies await you to face these topics in different meetings day by day.

### ***Recommended for:***

BSc 3<sup>rd</sup> year students, MSc students, graduates in:

- Design & Engineering
- Materials Engineering and Nanotechnology, Safety and Prevention Engineering in the Process Industry, Industrial Production Engineering, Food Engineering, Nuclear Engineering, Biomedical Engineering, Chemical Engineering, Management Engineering, Mechanical Engineering, Environmental and Land Planning Engineering

# DATA

# MANAGEMENT

**FROM MAY 2 TO MAY 6**

**ROUND TABLE WITH COMPANIES** | MAY 2

**CAREER PUZZLE WITH COMPANIES** | MAY 2

**GUESS MY JOB** | MAY 3

**CAREER TALK ON TECHNICAL PROJECTS** | MAY 4

**RECRUITING DAY** | MAY 5

**RECRUITING DAY** | MAY 6

***Is Data the new oil?***

***How do you implement a good data strategy management, why is this important and what do you need to consider?***

Together with 30 different companies you will widely explore subjects, such as business intelligence, data analytics, data science, cyber security.

This week the meetings will give you a picture of new jobs, required skills and work opportunities in the field of data management.

***Recommended for:***

- BSc 3<sup>rd</sup> year students, MSc students, graduates in:
- All Engineering courses
  - Communication Design, Digital & Interaction Design

## OTHER MEETINGS FOR ENGINEERING STUDENTS

**CAREER TALK:** follow a path of company speeches to learn more about projects and skills requested to be part of one of their working teams. At the end of each talk you can interact with managers to further explore your questions on roles and skills required to work in certain sectors.

**PROJECTS IN ELECTRONICS SECTOR** | MARCH 25

**PROJECTS IN FINANCE** | MARCH 25

**LOGISTICS & DIGITAL SUPPLY CHAIN** | APRIL 7

**TELECOMMUNICATION PROJECTS** | MAY 3

**GUESS MY JOB:** find the clue and guess the professional role of the representatives and their working activities. Listen to their “anonymous” presentations, identify the key elements and guess their job profile.

**ROLES FOR MANAGEMENT ENGINEERS** | FEBRUARY 23

**ROLES FOR MANAGEMENT ENGINEERS** | MAY 26

**Recommended for:**

BSc 3<sup>rd</sup> year students, MSc students, graduates in:  
• All Engineering courses

**ROUND TABLE:** managers and engineers will tell you all about their career paths and answer your many questions in an open discussion amongst employers’ different points of view.

**BIOMEDICAL SECTOR** | MARCH 14

**PROJECTS IN THE ELECTRIC SECTOR** | MARCH 18

**NUCLEAR ENGINEERING STUDENTS** | APRIL 6

**ROLES IN TELECOMMUNICATION** | APRIL 8

**PROJECTS IN THE ELECTRONIC SECTOR** | APRIL 29

**CYBER SECURITY PROJECTS IN THE AUTOMOTIVE SECTOR** | MAY 5

**ROLES IN INFRASTRUCTURES AND STRUCTURES MANAGEMENT** | MAY 6

**ENVIRONMENTAL SECTOR PROJECTS** | MAY 17

**GEOINFORMATICS ENGINEERING STUDENTS** | TBD

**GROUP MENTORING:** chat in small groups with managers and engineers (many of whom are Polimi Alumni). Ask them about the job market, what skills are needed, how the choices you make during your studies may affect your future, what corporate life is really like...

**AEROSPACE SECTOR** | APRIL 22

## OTHER MEETINGS FOR DESIGN STUDENTS

**GUESS MY JOB:** find the clues and guess the professional role of the representatives and their working activities.

**DISCOVER DESIGNER ROLES** | TBD

**ROUND TABLE:** managers and designers will tell you all about their career paths and answer your many questions in an open discussion amongst employers' different points of view.

**THE ROLE OF THE DESIGNER IN COMPANIES** | APRIL 1

**Recommended for:**

BSc 3<sup>rd</sup> year students, MSc students, graduates in:  
· All Design courses

## OTHER MEETINGS FOR ARCHITECTURE STUDENTS

**GROUP MENTORING:** chat in small groups with managers and architects (many of whom are Polimi Alumni). Ask them about the job market, what skills are needed, how the choices you make during your studies may affect your future, what corporate life is really like...

**ARCHITECTURE STUDENTS** | FEBRUARY 18

# Architetti: che fare?

**PRESENT AND FUTURE OF THE JOB MARKET FOR  
STUDENTS AND GRADUATES IN ARCHITECTURE.  
A DAY TO DISCUSS ABOUT TRENDS WITH EXPERTS OF  
THE SECTOR AND DISCOVER REAL JOB OPPORTUNITIES.**

**MAY 31**

**Recommended for:**

BSc 3<sup>rd</sup> year students, MSc students, graduates in:  
· School of Architecture Urban Planning Construction Engineering

# LEADERSHIP TIPS FOR WOMEN IN TECHNICAL ROLES

**WOMEN IN TECHNICAL ROLES** | MAY 25

Come listen to women who are in technical roles speak about how they use leadership in their work. At the end of the talks you will meet them in person for a special networking session.

**Recommended for:**

BSc 3<sup>rd</sup> year female students 3<sup>o</sup> anno LT, MSc female students, female graduates

# PHD JOB MENTORING DAY

**PHD JOB MENTORING** | MAY 27

Join us for a day of online mentoring with PhDs who work in companies. They will tell you about the innovation they bring to the company. It will also be a great networking moment.

**Recommended for:**

PhD 3<sup>rd</sup> year students and PhD graduates

# GROUP ASSESSMENT

Take part in the simulation of a group interview held by real company assessors, to become aware of which soft skills are required in companies today, learn about your strengths and practice a common method used in recruiting.

**FOR MANAGEMENT ENG. STUD. (3<sup>rd</sup> YEAR BSc) | APR-JUN**

**FOR BUILDING AND CONSTRUCTION ENG. STUD. (3<sup>rd</sup> YEAR BSc) | MAR-APR**

**FOR MSc | FEB-JUN**

# MEET YOUR CAREER ADVISOR...

**with Career Service Advisor / with company HR**

Receive suggestions to write your CV at best highlighting your strong points, mock a job interview for your first meeting with a recruiter, and learn more about roles, sectors and skills required on the job market.

During the whole semester you can meet your Career Advisor, and you can also book the “*Career advisor online by company HR*” to have a one-to-one interaction with a company representative from Human Resources for career advice.

**FOR EVERYONE | FEB-JUN**

Take part in the biggest job fair dedicated  
to Politecnico di Milano students and  
graduates next May 9-10

in 2 days

**ONLINE**

and

**ON CAMPUS**

you'll meet

**MORE THAN**

**140**

companies

**Recommended for:**

BSc 3<sup>rd</sup> year students, MSc students, graduates in:  
• Architecture, Design, Engineering
